TOSHIBA
Leading Innovation

SATELLITE P100

Enjoy video and audio performance at its best.

Innovative design and performance

- Enjoy breakthrough entertainment thanks to the Intel® Core™2 Duo Processor with its enhanced multitasking capabilities and future-proof 64-bit technology*
- Go mobile in style with the Satellite P100’s elegant and dynamic sunlight copper design
- Experience more productivity, security and entertainment at home and on the go with Windows® Vista™ Home Premium

Superlative video entertainment

- Outstanding 17” WSXGA+ display* featuring Toshiba TruBrite® technology for amazingly brilliant, sharp colours to show movies in full widescreen glory with 1,680 x 1,050 resolution
- Choice of Mobile Intel® 945GM Express chipset and the latest NVIDIA® GeForce® Go 7 Series graphics, delivering best-in-class graphics and performance for gaming and video applications
- Enjoy the ultimate thrill of High Definition viewing thanks to “HD to go”* from Toshiba
- Built-in DVI-D port* to display HD digital content on an external digital TV
- Toshiba’s StoreMore* is the high-capacity storage solution that lets you be more productive and better entertained on the move

State-of-the-art audio quality

- Integrated Harman Kardon® stereo speakers for enhanced sound capabilities and a broader range of frequencies
- SRS® TruSurround XT™ audio technology provides a richer, virtualised surround sound experience
- With SRS® WOW you get a panoramic 3D audio listening experience

All-in-one convenience

- Express Media Player* provides instant-on music and movie playback functionality – without the need to boot the operating system
- Integrated numeric keypad for convenient number input
- Microsoft® Office OneNote™ 2003 bundled for quick and easy note organisation plus a vast selection of software and utility tools for maximum productivity
- Mobile working is simplified with Toshiba ConfigFree™ for seamless wired and wireless connectivity

Extensive connectivity and expansion features

- Wireless LAN 802.11a/b/g
- International V.90 modem (V.92 ready)
- Ethernet LAN port for fast wired network connection
- i.LINK® (IEEE1394) port
- Bluetooth® 2.0 facilitates fast cable-free data transmission between other PCs, phones and PDAs
- 5-in-1 Bridge Media slot (supports SD™ Cards, Memory Stick®, Memory Stick Pro®, MultiMedia Card™, xD-Picture Card™)

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • SRS® TruSurround XT™ is only available for WinDVD applications. SRS® WOW™ is only available for Windows Media Player 9 in standard Windows interface. • Please check your system specifications to ensure optimal results. • Microsoft® Office OneNote™ 2003 is not available in all countries. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. • Not all Windows Vista features are available for use on all Windows Vista Capable PCs. Check: www.windowsvista.com/getready for details.

TEG February 2007, Art. No. EN-DB_SatP100_DataS_Feb07. Microsoft, Windows and Windows Vista are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices and system, component/options availability are all subject to change without notice. Product design specifications and colours are subject to change without notice and may vary from those shown. Errors and omissions excepted.
